FULL ASSOCIATED PRESS REPORT

NUMBER 269.

NO NEED FOR WORRY ABOUT T. ROOSEVELT

NEW YORK, Nov. 5.—Another of those apparently absurd rumors that bob up nearly every time a prominent man gets out of direct touch with the world circulated over the country today concerning Theodore Roosevelt. The will-o-the-wisp had it that Roosevelt had been killed in Africa and because of the dangers of African hunting, freshly imprinted on the public mind by Mr. Roosevelt's magazine articles, there was some uneasiness until Douglas Robinson, Mr. Roosevelt's brother-in-law, declared emphatically that he took no stock in such reports. Mr. Robinson branded the first vague reports of the day as false, and when informed tonight of later rumors from the shadow land of newspaperdom had it that he (Mr. Robinson) had been advised by cable of Mr. Roosevelt's death, he authorized another vigorous denial. If anything happens to his brother-in-law Mr. Robinson was sure he would hear of it immediately and accordingly placed no credence in the report of today.

Magazine editors and other associates of Mr. Roosevelt in New York took the same view who pointed out also that the colonial office in London would be promptly advised of mishap to Roosevelt, and as nothing has appeared that it is rumor merely, and news springs from the field of the sixth sense. According to the latest cable dispatch, Mr. Roosevelt is hunting on Ghas Inghu plateau and will return to Londani in about five weeks.

ALL SCHOOLS TO SUSPEND A WEEK

Superintendent C. F. Philbrook received word yesterday that the special sleeper for the teachers of Bisbee to Phoenix and return, to attend the teachers' institute and incidentally the territorial fair, would be ready for them Monday, and all will leave together at 2:45 Monday afternoon to be gone a week.

The scholars throughout the territory will have an extra week of vacation on this account, the schools closing last night. They will reopen a week from Monday.

Supt. Philbrook will leave this afternoon with Messrs. Murray, Boardman and Gooding, as an advance guard to arrange for quarters and to see that the exhibit of the local schools is properly placed at the fair grounds. County Superintendent E. H. Stover and Prof. G. E. Krimbill will go tomorrow.

Bisbee's exhibit, consisting mainly of drawing, water color and scroll work, should bring back at least two or three of the individual and class prizes. The high school students have done some exceptionally clever work with pencil and brush, some of the scroll work, water-color paintings and reproductions of other paintings being of exceptional merit. The artwork, with a few samples of what the primary classes are doing, together with a number of pictures of the Central, Lincoln, Warren and Lowell schools, with the drawing of the proposed new high school, will constitute the exhibit. The frames for the pictures have been constructed by the manual training department and will also be entered as samples of the boys' workmanship. Over this will be placed a panoramic view, in colors, of Bisbee, when it is set up in the building to which it may be assigned.

DYNAMITERS WRECK PLANT.
CLEVELAND, Nov. 5.—Dynamiters tonight blew up \$100,000 worth of steel appliances, used in the construction of the new plant of the Corrikan McKinney company, and wrecked the tracks of the Newberg and South Shore railroad. The men employed at the scene of the explosion escaped. Labor trouble are blamed for the blast, the fifth within two years.

SCIENTISTS ARE CURIOUS.
WASHINGTON, Nov. 5.—A cablegram signed by Prof. Willis L. Moore, was sent tonight to the University of Copenhagen announcing that it is about to send representatives to Copenhagen and request that they be given the courtesy of attending the official examination of Dr. Cook's papers. The national Geographic society, it was said tonight, stands ready to honor Cook with a medal similar to the one conferred on Peary if he can prove as clearly as the latter did that he reached the pole.

MAN ENDS HIS LIFE TO AIR "WHEN LOVE DIES."
PARIS, Nov. 5.—A man believed to be either an American or an Englishman, dramatically committed suicide in the Montmartre cafe tonight. He had led the orchestra seven times to play the waltz, "When Love Dies." As the last strains died away he placed a pistol to his head and shot himself.

ARIZONA'S GOVERNOR IS ENTHUSIASTIC OVER STATEHOOD PROSPECT.

(By Associated Press.)
PHOENIX, Nov. 5.—Governor R. E. Sloan returned yesterday from New Orleans, having accompanied President Taft on the trip from St. Louis down the river. He is quite enthusiastic over the prospects of the territory for statehood. The river journey, he says, was a delightful one, notwithstanding newspaper reports of its inconveniences due to slow boats.

APPOINTS WOMEN ON THE BOARD

MAYOR McLELLAN GIVES SUFFRAGE WORKERS CHANCE TO REJOICE WHEN THREE ARE NAMED FOR OFFICE.

(By Associated Press.)
NEW YORK, Nov. 5.—As one of the few important official acts which will fall to Mayor McClellan, before his administration closes December 31, he appointed today three women to the board of education and thereby conceded one of the principal demands of women's suffrage organizations. It is the first time in more than a quarter century that women have gained representation on the board and the news, heralded through women's suffrage ranks tonight, was welcomed as a victory.

The three women appointed today, each of whom represents a different religious faith, are Mrs. Herbert B. Robbins and Miss Olivia Leventritt, daughter of State Supreme Court Justice Leventritt, both of New York City, and Mrs. Alfred S. Post of Flushing, L. I.

BASKET BALL SEASON WILL BEGIN TONIGHT

In the opening game of the basketball season the Bisbee and Douglas Y. M. C. A. teams will clash at the local gymnasium tonight at 8:30 o'clock.

Yesterday the players who, out of the eighteen trying-out, were lucky enough to land berths on the first team, were named, and tonight the locals will line up as follows:

Forward, B. E. Prentice; forward, W. Menge; center, A. Winneman; guard, Z. Kilt; guard, H. E. Hurd. The aggregation that will represent Bisbee this year is a remarkably fast one, and the best of them in these parts will have to go some to beat them. Winneman played on the champion Michigan College of Mines team at Houghton, Michigan, for a year or two while Menge was with the 23rd street team of New York City and the Buffalo, N. Y. Germans, for some time.

Prentice played Rockford, Ill., for two years, on the Wheaton College team, one of the best in Illinois at that time, while Kilt has a record of two years with the University of Montana and Hurd played with the Stillman, Ill., high school team.

Basketball enthusiasm is running high and all are confident that it will be an easy matter to subdue the Douglas boys. H. Holden will referee and Robert Varner will act as umpire.

ENGLISH LIBERALS PLEASED

LONDON, Nov. 5.—The Liberal papers this morning are pleased that the budget left the house of commons backed by a solid majority representing the whole strength of the party, including the labor members. The only matter of discontent is the refusal of the nationalists to support the budget. In explaining the party's decision to abstain, John Redmond, in a speech in the house later, emphatically declared that it was to be a question of the Lords' power to block the country's legislation permanently he would not be on the side of the Lords but on the side of the commons and he would not allow himself to be carried from this attitude by reason of his opposition to increased taxation in Ireland.

Emmeline Pankhurst Militant Suffragist in America

NEW YORK, Nov. 5.—The fight for woman's suffrage is to be carried into the American congress if Mrs. Pankhurst, leader of the militant suffragists of Great Britain, has her way.

On her arrival here she was greeted by a small but enthusiastic group of admirers and defenders and at once defended the militant tactics.

Mrs. Pankhurst will remain in the United States until November 22. Mrs. Pankhurst is slight of stature and has a wealth of brown hair, which is just turning gray. She looked a typical English woman and was dressed becomingly in a dress of dark material.

HAWAIIAN ISLANDERS RESENT "DRY" ATTACK

HONOLULU, Nov. 5.—Both houses of the territorial legislature adopted today a joint resolution voicing an earnest protest against an attempt of J. G. Woolley, a local attorney and others to secure a federal enactment extending prohibition to the Hawaiian Islands. Woolley and associates, it is reported, have been carrying on a campaign to this end, Washington and other maintained cities sometimes.

The resolution, which was adopted in the house, 26, to 2, and unanimously approved by the senate, characterizes the proposed Woolley act as a violation of the principles of self-government and protests against it as an attempt to keep from the people of Hawaii the right to regulate their own internal affairs. The territorial delegates at Washington are urged to oppose the act.

RELIGIOUS SCRAP ENDS.

(By Associated Press.)
NEW YORK, Nov. 5.—Mrs. Augustus E. Stetson, formerly head reader of the First Church of Christ, (scientists) of this city, was exonerated today of charges of "mental malpractice" in a report of a special board of inquiry presented to the congregation of 2,000 persons.

The exonerated was endorsed by the members, but a portion of the board's report which concerned Virgil C. Strickler, her successor, as first reader, was referred back for further consideration. The meeting of the congregation was stormy.

PENSION OFFICER DIES.

(By Associated Press.)
WASHINGTON, Nov. 5.—Philip A. Coleman, principal examiner, and assistant chief of the board of review of the pension office, is dead at his home here. Mr. Coleman began his work with the bureau in 1877. He was 68 years old.

Play Capacity Houses

Last night occurred the opening of the new Fandis, theater, in the old opera house building. Manager Norcross has had the interior of the auditorium thoroughly remodeled to fit the needs of an up-to-date moving picture theater, and two capacity audiences greeted the opening performance. Miss Peterson, who sings the illustrated songs, is possessed of a good voice and did exceedingly well, while the pictures, both comic and serious, pleased young and old alike. Those attending were highly satisfied.

IRON NERVE OF FRENCH WOMAN AT LAST BREAKS

PARIS, Nov. 5.—After having withstood nearly three days of merciless examination at the hands of the presiding judge of the court of the assizes where she is being tried on a charge of murdering her husband and step-mother, the iron nerves of Mme. Margaret Steinhell gave way late today and she was led out of the court room in a state of utter collapse. Several times before the climax came restoratives were administered when it seemed as though Mrs. Steinhell was about to faint, and each time she recovered and quickly replied to the interrogations of Judge M. Devalles.

When today's session began, M. Devalles was fearful lest the strain was proving too much for Mme. Steinhell, but his solicitude evoked from Mme. Steinhell the unhesitating statement that she was no at all fatigued. M. Devalles thereupon led her through a labyrinth of questions surrounding the case with his wonted relentlessness and Mme. Steinhell, with her ever ready wit, answered them quickly to the point, or when they seemed unduly compromising, pleaded for justice not vindictiveness. Once she made a plea direct to the jury that they believed her innocent, declaring that in the hour of her adversity her erstwhile friends who had partaken of her hospitality, had utterly forsaken her.

Again, when pressed closely by M. Devalles as to why she had declared certain jewels had been stolen at the time of the murder, when in reality she had concealed them, Mme. Steinhell, eyes brimming brightly and moistness, cried out that it was to save her daughter from the knowledge that her mother had a lover.

MORE TROUBLE IN SPOKANE

(By Associated Press.)
SPOKANE, Nov. 5.—Samuel T. Crane, attorney, was arrested today for denouncing in a street harangue the action of the police and firemen toward the "Industrial Worker of the World." From his office window to had made a brief speech and then descended to the sidewalk, where Chief of Police Sullivan and Deputy Sheriff Hoffman were waiting for him.

The lawyer fought his captors and at the station was booked on a charge of inciting riot and was confined to the city jail. Officers said that previous to his speech Crane had been on a tour of the city, remonstrating with the firemen when they started to connect a line of hose with a hydrant to throw water upon some men who refused to move on.

In the crowd that followed Crane and his captors down the street was Councilman John Gray, who did not move fast enough to satisfy the officer. The latter shoved him ahead with no gentle touch, where at Gray angrily exclaimed: "I'm a councilman, officer, I'd have you understand." "I don't care who you are, move along," retorted the officer. Gray moved.

TAFT WITNESSES ACCIDENT

(By Associated Press.)
CHARLESTON, S. C., Nov. 5.—President Taft, headed by a procession of automobiles, passed through the principal business streets today soon after his arrival. He was cheered by immense crowds on the way to the home of Mayor Rhett, where he passed the night. He was the guest of honor at a banquet tendered by the city.

The president leaves tomorrow morning for Columbia. Taft had a busy day in Savannah. During a sail down the river to Fort Screven he witnessed an accident in which it was thought at first two men had been killed. As matters turned out, one man, a negro, lost his arm and another his eye. The two men were flying a salute to the president from a small boat up at the water front.

Prominent Candidates in State Elections Held This Week

STOLEN RIDES ARE MANIA WITH YOUTH

George Jeffries, the 16-year-old boy with a penchant for "joy rides" in other people's carriages, came to grief as the result of one of those pleasure jaunts Thursday night, and upon a complaint sworn to by Mr. Davidson, the grocer in the Hughes block, Deputy Sheriff Bill White yesterday arrested him.

The complaint charges him with breaking the lock on Mr. Davidson's barn door and appropriating his horse and buggy for his drive about the town. Officers Thursday night noticed him going at a fast clip about the streets, but paid no attention. Yesterday Davidson came before Justice High and swore to the complaint.

This is not the first time Jeffries has been in trouble. Some months ago he took a similar ride, using Edwards' carriage and Hogan's horse on the trip. He was arrested, but on account of the boy's widowed mother, Hogan and Edwards agreed to drop the case provided that Jeffries paid for the damage that had been done to the buggy in the course of the trip.

Jeffries thereupon turned around and charged Edwards with extortion, he was indicted by the grand jury and sentenced to two years' imprisonment. However, he has not gone to jail as yet. Jeffries, on the former charge, escaped punishment.

Justice High released him under \$50 cash bond for his appearance on Monday, when his hearing takes place.

WITNESS SWEARS THAT COOK MADE ASCENT

LEWISTON, Idaho, Nov. 5.—Walter Stiles, a rancher of Orofino, this state, who made numerous prospecting trips to Alaska, made an affidavit today in support of Cook's claim that he ascended Mount McKinley. Stiles swore that he, with several companions, who were on a prospecting trip to Alaska in the summer of 1906, was at Tyonok when Cook's party returned from the attempt to ascend the mountain.

DRY FARMERS TO MEET.

(By Associated Press.)
SPOKANE, Nov. 5.—October 2 to October 8, 1910, is the time recommended for the next National Dry Farming Congress, which will meet in Spokane. The dates were chosen at a meeting of business men today, it being proposed to hold an interstate fair on the same dates. The board of governors met here November 2 to shape plans for the congress.

BUNGLED BUZZER OFFICER MAKES A RAID

Although as yet the grand jury has returned no indictment against Smith and Toland, of the White House saloon at Lowell, it is probable that when that body reconvenes a week from Monday more than one indictment may go in against them charging them with gambling.

Some time ago Constable Bailey raided a room in the rear of a saloon where a poker game was in full swing, and a number of those in the game as well as those who saw the raid, were cited before the grand jury last week.

Now, however, another case is pending, as near as can be learned. A week ago Sunday, a new bartender, Charles Minear, went to work at the White House. He was not onto the signal system beneath the cash register, composed of two or three buzzers, which are rung every time Constable Bailey or Deputy Sheriff Norton appear on the scene and Norton walked in on him unexpectedly.

Minear, at sight of the gumshoe deputy began fumbling frantically beneath the cash register, and not being able to locate the buttons bent down and looked underneath. "Here, Charlie, let me find them," said the deputy, laughing. "But I know where they are better than you do."

Several men, who it is alleged were playing poker, were brought out from the little room in the rear and questioned by the deputy. Norton took their names and Thursday all went before the grand jury and explained what had happened in the room. Smith and Toland both were over to Tombstone yesterday, presumably on the same matter. When approached on the subject, however, the refused to have anything to say, while Assistant District Attorney Ed Flanagan was also inclined to be non-committal.

WHAT IS FAME TO THE SENIORS OF OLD BROWN

PROVIDENCE, Nov. 5.—None of 24 members of Prof. Wilfred H. Munroe's history class of Brown university, composed of seniors and juniors, was able to give correctly the full name of the president of the United States, a justice supreme court, governor of Rhode Island, a justice of the supreme court of the state and the mayor of Providence, when the questions were proposed as a test today.

Prof. Munroe desired to make the experiment, based on a recent attempt to secure a constitutional amendment in Maryland requiring from the voters the ability to answer correctly similar questions. Eighteen of twenty-four members of the class gave correctly the president's full name, two knew only the last name. No one succeeded in giving the full name of a justice of the supreme court of the United States. Seven had the name partly correct. Seven did not give even the last name of a justice.

NORTH DAKOTA HAS ACCIDENT ON TRIAL TRIP

PORTSMOUTH, N. H., Nov. 5.—As the new battleship North Dakota was completing a four-hour endurance run at a twenty-one knot gait, off the New England coast today, with the battleship speed champion almost in her grasp, a boiler room accident robbed her of the laurels and sent her scurrying into this port to land four injured men.

The ship, nevertheless, exceeded the contract requirement of twenty-one knots, making 31.71 in the first two hours, 21.44 in the third hour and 21.60 as she hurried in on the fourth hour.

The injured men are William H. Grange, water tender; John Souden, coal passer; A. Peterson, fireman and Peter McConnell, foreman. Souden was badly scalded.

A few minutes after the battleship passed Cape Ann and while entering the fourth hour of the test, a seven-inch tube in one of the lower boilers blew out and filled the room with steam. The engineers immediately cut off of the fourteen boilers. As soon as the extent of the injuries to the firemen had been ascertained the North Dakota was swung around and headed back up the coast for this port. All of the four injured men bravely urged the engineer force to disregard their injuries and keep the battleship on her work.

Under the ten boilers twenty-one knots were maintained for the remainder of the time and at 4 o'clock the North Dakota steamed into the harbor and sent the injured men ashore.

RAGING FLAMES AT FORESTS AND HOUSES

WINCHESTER, Va., Nov. 5.—Forest fires in this section continue to rage fiercely today, and unless rain comes within the next two hours the property loss will be enormous. Thousands of acres of valuable timber land in the great north mountains have been laid waste.

The fire was started by hunters on Monday last. The fire has raged four days in the Great North, Massena and Blue Ridge mountains. The town of McGaheysville, Rockingham county, is threatened with destruction and only last night did the combined population of the town succeeded in checking the flames.

GIVE PEARY O. K.

WASHINGTON, Nov. 5.—The report of the sub-committee of the National Geographic Society which examined the records of Peary reported today. The report says: "Peary submitted to this sub-committee his original journal and records of observations, together with all instruments and apparatus and certain of the most important scientific results of the expedition. These have been carefully examined and the committee is unanimously of the opinion that Peary reached the North Pole on April 6, 1909."

HIDES THE BOOKS.

KANSAS CITY, Nov. 5.—L. N. Rich, general manager of Swift's Company Packing Plant, arrested yesterday for refusing to produce the company's books before the commissioners of Wyandotte county, was re-arrested today, and taken before the commissioners to testify in the tax hearing. The board also issued an order directing the sheriff to seize the books of the company.

REVOLUTIONISTS SUCCEEDING.

(By Associated Press.)
NEW ORLEANS, Nov. 5.—After a lapse of several days, the local Central American colony received news from the front today. From Bluefields and the Atlantic ports of Nicaragua came reassuring advices to the sympathizers of General Estrada, leader of the revolutionists, saying the "Liberators" was daily gaining strength in men, arms and ammunition and that President Zelaya was making no move to regain the territory taken by the revolutionists.

GOLD FIND IN CANADA.

(By Associated Press.)
VICTORIA, B. C., Nov. 5.—Arrivals from Sombay River, fifty miles from here, on the west coast of Vancouver Island, report that placers there are proving to be very rich. Some nuggets washed out are as large as wheat. The ground being hydraulicked pays from seven to forty cents a yard.
